

LIBERIA

Women, Business and the Law (WBL), in collaboration with the Global Financing Facility (GFF), has collected data on laws affecting women's and girls' access to sexual and reproductive health (SRH), as well as frameworks supporting their implementation. Data were collected through desk research and a questionnaire administered to country experts. The analysis is organized around five indicators. For each indicator, the legal framework is assessed based on domestic laws and regulations. The supportive framework is assessed based on instruments—such as national policies, strategies, and guidelines—that are currently in effect and support the implementation of these laws.

INDICATOR		WHAT DOES IT MEASURE?	
		<i>Legal Frameworks</i>	<i>Supportive Frameworks</i>
	SRH rights	Right to SRH; guaranteed access to free SRH services without discrimination	Existence and contents of an operational SRH policy or strategy
	Violence against women and girls (VAWG)	Prohibition of female genital mutilations (FGM)	Adoption of measures to eradicate FGM
	Family planning	Absence of legal restrictions on SRH services, such as the need for consent from a husband, male guardian, parent or third party	Family planning guidelines or protocols
	Comprehensive sexuality education (CSE)	Legal mandates for CSE in schools	Guidelines for delivery of CSE in schools
	Right to education	Girls' legal right to attend school during pregnancy and after childbirth	Policies to keep girls in school and allow pregnant and parenting students to attend school

LEGAL AND SUPPORTIVE FRAMEWORKS

Liberia has a comprehensive and defined framework for:

FAMILY PLANNING

No provisions in the law require women to obtain consent from their husband or male guardian, or adolescents to obtain parental or a legal guardian's consent to access SRH services. Similarly, the law does not require any third-party consent that may restrict access to SRH.

Liberia has taken several steps to publish guidelines on family planning services. The *Preconception Protocol* provides guidance to health care providers on comprehensive preconception care, including reproductive health education, clinical assessment and counseling, and the prevention and management of

health conditions and risk factors that may affect reproductive health and pregnancy outcomes. The *Comprehensive Family Planning Facilitator Guide* is designed to train physicians, nurses, midwives, and assistants in family planning and reproductive care. The *Core Competencies in Adolescent Health and Development for Primary Care Providers Guide* covers sexual and reproductive health services, including counselling on sexually transmitted infections (STIs) and HIV.

RIGHT TO EDUCATION

The *National Policy on Girls' Education* lays out policies to keep girls in school and eliminate barriers that impede the schooling of pregnant adolescents and young mothers.

POLICY OPPORTUNITIES

The data reveal gaps in Liberia's legal and supportive frameworks across the five indicators assessed. Strengthening these frameworks can help accelerate the country's progress toward gender equality and to improve health outcomes for women, children, and adolescents.

Liberia may wish to consider translating the following gaps into policy opportunities:

SRH RIGHTS

The law does not guarantee the right to SRH or access to SRH services. Additionally, it does not prohibit discrimination in accessing SRH services based on sex or gender, age, or marital status.

No SRH strategy or policies are currently operational, suggesting absence of targets and domestic budget for SRH service provision and awareness-raising campaigns.

VIOLENCE AGAINST WOMEN AND GIRLS

FGM and cross-border FGM are not criminalized under the law, and no measures aimed at preventing or eradicating FGM are currently operational.

FAMILY PLANNING

The law does not guarantee access to SRH services in case practitioners raise conscientious objections.

COMPREHENSIVE SEXUALITY EDUCATION

The law does not mandate the provision of CSE in schools.

Guidelines for the delivery of CSE in schools have not been adopted.

RIGHT TO EDUCATION

The law does not explicitly provide for the right of pregnant or parenting students to attend school during pregnancy and after childbirth.
