

UGANDA

Women, Business and the Law (WBL), in collaboration with the Global Financing Facility (GFF), has collected data on laws affecting women's and girls' access to sexual and reproductive health (SRH), as well as frameworks supporting their implementation. Data were collected through desk research and a questionnaire administered to country experts. The analysis is organized around five indicators. For each indicator, the legal framework is assessed based on domestic laws and regulations. The supportive framework is assessed based on instruments—such as national policies, strategies, and guidelines—that are currently in effect and support the implementation of these laws.

INDICATOR		WHAT DOES IT MEASURE?	
		<i>Legal Frameworks</i>	<i>Supportive Frameworks</i>
	SRH rights	Right to SRH; guaranteed access to free SRH services without discrimination	Existence and contents of an operational SRH policy or strategy
	Violence against women and girls (VAWG)	Prohibition of female genital mutilations (FGM)	Adoption of measures to eradicate FGM
	Family planning	Absence of legal restrictions on SRH services, such as the need for consent from a husband, male guardian, parent or third party	Family planning guidelines or protocols
	Comprehensive sexuality education (CSE)	Legal mandates for CSE in schools	Guidelines for delivery of CSE in schools
	Right to education	Girls' legal right to attend school during pregnancy and after childbirth	Policies to keep girls in school and allow pregnant and parenting students to attend school

LEGAL AND SUPPORTIVE FRAMEWORKS

Uganda has a comprehensive and defined framework for:

SRH RIGHTS

The *Second National Family Planning Costed Implementation Plan 2020/21–2024/25 (FP-CIP II)* seeks to strengthen the health system and expand equitable access to family planning. It sets targets for increasing the availability of intrauterine devices, implants, and postpartum family planning services, and provides for nationwide awareness campaigns through radio, television, and social media.

The *National Comprehensive Condom Programming Strategy and Implementation Plan 2020–2025* aims to expand access to male and female condoms and provide information on their correct use to prevent sexually transmitted infections, including HIV, and unintended pregnancies.

VIOLENCE AGAINST WOMEN AND GIRLS

The *Prohibition of Female Genital Mutilations Act* criminalizes FGM, including cross-border FGM. Both individuals performing FGM and parents or guardians allowing it can be held criminally responsible.

FAMILY PLANNING

No explicit legal provisions require women to obtain consent from their husband or male guardian, or adolescents to obtain parental or a legal guardian's consent to access SRH services. Similarly, the law does not require any third-party consent that may restrict access to SRH.

In 2023, the Ministry of Health developed two volumes of the *Comprehensive Family Planning Clinical Skills Training Manual*, providing health care providers and trainers with updated guidance on the knowledge, clinical skills, and procedures required to deliver quality family planning services across all levels of care.

RIGHT TO EDUCATION

The *Revised Guidelines for the Prevention and Management of Teenage Pregnancy in School Settings in Uganda* establish procedures to support pregnant students and adolescent mothers in continuing and resuming their education, including counseling, flexible educational arrangements, and measures to prevent stigma, discrimination, and violence. The Guidelines provide for unconditional readmission once the child is at least six months old and require schools to prioritize and support the re-entry of adolescent mothers.

POLICY OPPORTUNITIES

The data reveal gaps in Uganda's legal and supportive frameworks across the five indicators assessed. Strengthening these frameworks can help accelerate the country's progress toward gender equality and to improve health outcomes for women, children, and adolescents.

Uganda may wish to consider translating the following gaps into policy opportunities:

SRH RIGHTS

The law does not guarantee the right to SRH or access to SRH services. Additionally, it does not prohibit discrimination in accessing SRH services based on sex or gender, age, or marital status.

VIOLENCE AGAINST WOMEN AND GIRLS

No measures aimed at preventing or eradicating FGM have been adopted.

FAMILY PLANNING

The law does not guarantee access to SRH services in case practitioners raise conscientious objections.

COMPREHENSIVE SEXUALITY EDUCATION

The law does not mandate the provision of CSE in schools. Guidelines for the delivery of CSE in schools have not been adopted.

RIGHT TO EDUCATION

Girls do not have the legal right to attend school during pregnancy and after childbirth. The government has not adopted any policies to keep girls in school.
